

Housing Food Account online deposits

Students will need to register and set up a password the first time they visit the Wiscard Web site to make Housing Food Account deposits. Parents and other third parties can make deposits using the student's ID number.

A password is not required to make deposits, but the student's ID number AND password are required to check Housing Food Account balances, review transaction history, or suspend a lost or stolen ID card. For more details, see the chart below.

Housing Food Account deposits by check

You will find a Housing Food Account deposit form with your Quarterly Housing Bill. Prepare separate checks for your Quarterly Housing Bill and Housing Food Account deposit.

Checks for your Housing Food Account deposit should be made out to UW-Madison Division of University Housing and should include on the memo line "Deposit to Housing Food Account # (Campus ID number)." If you do not have a Housing Food Account deposit form, be sure to indicate the student's full name and that this is a deposit to the Housing Food Account.
