#1 study tip: Gather your things, leave the lap top behind, get out of your dorm room, and go hide yourself away in Memorial Library

Piece of advice you wish was given to you your 1st year: School is hard, and you WILL go crazy if you don't find something besides school to do. You have to look forward to getting up each day, and that means getting involved in extracurriculars. If you don't, you will hate 5 out of the 7 seven days

Best thing about the UW: There is nothing better than sitting on the docks by the Union on August afternoon with a breeze blowing off the lake, the band in the back ground, and friend all around you—truly amazing.

Major: Economics with a certificate in leadership and business. I intend to go to law school

Favorite UW Sport: Football in the fall, hockey in the winter

If I had a million dollars: If I had a million dollar I wouldn't tell anyone. I would invest 80% of it in staggered trusts that I wouldn't be able to withdraw from till a certain amount of time elapsed. With the 20% left, I would pay for my college education and distribute the remaining portion to my friends anonymously.

#1 thing you should know about me: Seeing happy people makes me happy.

My 3 wishes for our community next year:

My hope is that:

1. you guys don't make the same mistakes I made as a freshman.
2. you build STRONG friendships within your community.
3. you stay focused on your goals and dreams.

If you do all of those things then you will have a wonderful college experience.
