

### Staff Bio Sheet

**Name:** Jim Franzone

**Favorite Books:** Watership Down, Dark Star Safari, most of the Ender's Game series, LOTR.

**Favorite TV Shows:** The Office, Scrubs

**Favorite Movie:** Die Hard, LOTR series, Matrix series, Star Wars series, X-Men 2, yeah I'm a big sci-fi super hero movie nerd.

**#1 study tip:** Go to class. All the studying in the world can't help you if you skip classes.

**Piece of advice you wish was given to you your 1<sup>st</sup> year:** The first two weeks isn't anything like what the next 16 will be. Everything is new and different at first, it is overwhelming and you should give yourself permission to adjust.

**Best thing about the UW:** Memorial Union on a Summer Evening, fall football, amazing faculty, and something going on every night.

**Major:** As an undergrad I got a BS in Experimental Psychology from Millikin University, I got my Master of Science degree from UW-La Crosse. I'm hoping to start on my PhD soon.

**Favorite UW Sport:** Okay, I admit it – I'm a University of Illinois basketball fan and Notre Dame football fan.

**If I had a million dollars:** I would pay off my mortgage, enroll in school full time to get a PhD and buy my two little girls a pony – at least they would want me to get them a pony.

**#1 thing you should know about me:** I'm a devoted father and husband, born and bred in Illinois, and love Madison and the UW!

**My 3 wishes for our community next year:**

1. For us to help you have a successful first year at the UW.
2. For you to truly work to live in community, and respect and learn from each other.
3. For you to have fun and appreciate what an immense privilege it is to be getting an education at the University of Wisconsin – Madison.

**On Wisconsin!**
