

Technology Services

Built for your **success.**

Services Included

University Housing Residence Halls summer guest rooms have complimentary high-speed Internet and digital/cable television service. UWNet wireless access is available in all rooms and throughout the residence halls and dining room areas.

Telephones

Telephones are located in various common areas within the residence halls and allow for free local calling. Long-distance calls can be made with a pre-paid calling card.

Campus Information Labs

Campus Information Labs are reserved through the Division of Information Technology. Visit <http://www.doit.wisc.edu/services/computer-labs-infolabs>.

Tech Centers

University Housing Tech Centers can be reserved for class instruction.

Adult conferences typically have access to a computer kiosk or a tech center within their hall, when it is not being used for classes.

iMacs provide the standard Microsoft Suite (Access, Excel, PowerPoint, Publisher and Word), Dreamweaver, Illustrator, Photoshop, and other programs. iMacs provide a dual-boot environment, capable of accessing Windows 10 and OSX. Printing services are also available.

Skype is available on all Tech Center computers which can be used to connect with family and friends nationally or internationally.

Cable TV

Our cable TV lineup features over 250 channels. A complete list can be found at <http://kb.wisc.edu/rtnlineup>.

UPDATED FEBRUARY 2017

*Technology Services staff can assist with **technical support, office-area computer rentals** and **network connections** for an additional charge. Campus programs that require installation of additional software must make arrangements at least two weeks in advance. Proof of proper licensing is required prior to installation. All rates and services are subject to change without prior notice.*
