EXECUTIVE SUMMARY REPORT
UNIVERSITY HOUSES RENOVATION
April 24, 2015

What’s New
Finishes continue to work their way through the first two zones. The first batch of plumbing fixtures are being installed in zone 1. Flooring and painting continues in zone 2. Hardware has been put on the new French doors, and the landscaper will soon start planting new trees, and seeding grass along new sidewalks and patios.

The Past Two Weeks
• Installed interior oak thresholds in zone 1
• Installed interior doors in zone 2
• Set plumbing fixtures
• Connect the kitchen and bathroom exhaust ducts to the new louvers
• Installed kitchen countertops and backsplashes

Coming Up in the Weeks Ahead
• Install kitchen cabinets in zone 2
• Install new chimney caps on the Hub building chimneys
• Installing appliances in zone 1 and 2
• Mechanical upgrades in the Preschool basement

Did you know? The flushing toilet was officially invented by John Harrington in 1596. In the US, toilets are flushed more times during the Super Bowl halftime than at any other point in the year.
