New in 2015-2016: CAREER KICKSTART IN OGG

Join fellow returners next year, and make the next step in your life with the new Career Kickstart program in Ogg. Beginning in 2015-16, Ogg will be exclusive to non-freshmen and will offer special events and resources geared towards landing an internship, finding a career path, and more!
If you come across a broken window, lock, or another urgent room situation such as a malfunctioning elevator, it is important to contact your house fellow or hall desk immediately. Non-emergency repairs such as burnt out light bulbs, window screens that need to be replaced, furniture that needs to be fixed (that is otherwise not causing a hazard), or problems with insects in rooms, are requested through an online system by submitting a MARS request. Go to mars.housing.wisc.edu to submit a request. It is important to note that you do not submit MARS request for problems with ResNet.

By practicing thoughtful recycling habits, you become an important part of a culture of sustainability in your new home at UW-Madison. As we share our space in the residence halls and the Madison community, we also share our space and resources with billions of people around the world. The recycling decisions that you make each day will help us save landfill space and preserve our resources for future generations to use.

ResNet Internet Service is available in all rooms and residence hall common areas, including floor dens and main lounges. In addition, expanded basic cable TV service is available in each residence hall room along with a variety of foreign language channels & several high-definition channels. In order to connect to your rooms cable TV, you will need a coaxial video cable. A complete channel listing (over 250 channels) can be found at http://cable.doit.wisc.edu/rtnlineup.

5 QUICK STEPS TO CONNECT
1. Enable the wireless network adapter on your laptop or wireless device.
2. Select the ResNet Wireless network from the list of available wireless networks.
3. Open your web browser. It will automatically redirect to the registration page.
4. Click "Start" under "COMPUTERS AND MOBILE DEVICES (DESKTOP, LAPTOP, SMARTPHONE & TABLET)."
5. Enter your campus-assigned NetID and password at the login page, as well as your preferred contact information.

If you are lofting near a window, the safety rail must be next to the window. No tools required.

At University Housing, we make energy conservation a priority. In Barnard Hall, steam is piped directly to wall radiators. The radiators have a valve on the upper end that must be opened (rotate left clockwise) to obtain heat. Try making small adjustments at first so you don’t overheat your room. When leaving your room for the day, please close windows in order to help conserve energy. It is important to keep your windows closed during unseasonably cool or warm periods to conserve energy and maintain comfort for yourself and other residents.

Always check to make sure belongings (furniture, bedding, carpet) are not pushed up against the convectors or radiators. A free flow of air is important to keep your windows closed during unseasonably cool or warm periods to conserve energy and maintain comfort for yourself and other residents.

HELPFUL TIPS
1. Help conserve energy through common sense habits.
2. Close your drapes or blinds at night.
3. Open your drapes or blinds on sunny days during winter months.
4. Don’t forget the window screen.
5. Dress in layers.

SPECIALTY RECYCLING
(Holt Center & Gordon Dining and Event Center)
• Plastic bottles, lids & containers
• Plastic envelopes
• Batteries (all types and sizes)

TRASH TO LANDFILL
• Unlabeled plastic bottles & containers
• Greasy pizza boxes
• Dining take out boxes
• Used napkins, tissues or paper dining ware

MIXED PAPER
• (not labeled)
• Greasy pizza boxes
• Dining take out boxes

CANS, GLASS & PLASTIC
• Aluminum beverage cans
• Glass & food beverage jars
• Plastic bottles, lids & containers
• Empty aerosol cans
• Cardboard

COMPOST/ORGANIC WASTE
Fast waste
• Unlabeled plastic bottles & containers
• Dining take out boxes

Drafty windows and doors (that are not being fixed) increase the energy consumption in each room. When leaving your room for the day, please close windows in order to help conserve energy.

Weather TV on your iOS or Android device using the CharterU app on campus.
