Stay in the Middle of it All

Return to the University Residence Halls in 2015-16

By returning to the residence halls next year, you get to create your own experience by choosing your exact room and the friends who surround you. Take over a house of rooms with your closest friends. Get a lakeside view or a private single room. Live in an apartment or a dry dorm. It’s your choice! Continue enjoying all of the convenient food and services of University Housing, while taking advantage of new opportunities exclusively for returners. Living on campus is a once-in-a-lifetime part of the Badger advantage of new opportunities exclusively for returners. Join fellow returners next year, and make the next step in your life with the new Career Kickstart program! Beginning in 2015-16, Ogg will be exclusive to non-freshmen and will offer special events and resources geared towards landing an internship, finding a career path, and more!
ResNet Internet Service is available in all rooms and residence hall common areas, including four dens and main lounges. In addition, extended basic cable TV service is available in each residence hall room along with a variety of foreign language channels & several high-definition channels. In order to connect to your rooms cable TV, you will need a coaxial cable. A complete channel listing (over 250 channels) can be found at http://cable.doit.wisc.edu/rtnlineup.

By practicing thoughtful recycling habits, you become an important part of a culture of sustainability in your new home at UW-Madison. As we share our space in the residence halls and the Madison community, we also share our space and resources with billions of people around the world. The recycling decisions that you make each day will help us save landfill space and preserve our resources for future generations to use.

If you come across a broken window, lock, or another urgent room situation such as a malfunctioning elevator, it is important to contact your house fellow or hall desk immediately. Non-emergency repairs such as burnt out light bulbs, window screens that need to be replaced, furniture that needs to be fixed (that is otherwise not causing a hazard), or problems with insects in rooms, are requested through an online system by submitting a MARS request. Go to mars.housing.wisc.edu to submit a request. It is important to note that you do not submit MARS request for problems with ResNet.

ResNet Internet & TV

5. Enter your campus-assigned NetID and password at the login page, as well as your preferred contact information.

4. Click “Start” under “COMPUTERS AND MOBILE DEVICES (DESKTOP, LAPTOP, SMARTPHONE & TABLET).”

3. Open your web browser. It will automatically redirect to the registration page.

2. Select the ResNet Wireless network from the list of available wireless networks.

1. Enable the wireless network adapter on your laptop or wireless device.

LOFT GUIDE

Conveniently-located laundry facilities provide high efficiency washing for $2.25/load. To purchase a load, simply swipe your Wiscard in the laundry room.

To check machine availability, receive email notifications when your laundry is done, or send a service request, go to www.laundryalert.com or download the Laundry Alert app for your mobile device. The app can be downloaded for Android and iOS devices in the play store or iTunes App store.

TRIPP LAUNDRY FACILITY: located in the Fallows basement and the first floor of Spooner

LAUNDRY

At University Housing, we make energy conservation a priority. In Tripp Hall, hot water is pumped through convector units which are located under the window in your room. A thermostat is located on the wall near the room entrance. The temperature dial on the thermostat determines what temperature your room will be. Always check to make sure belongings such as furniture, bedding, and carpet are not pushed up against the convector openings. A free flow of air must be maintained around the heating unit in order to heat your room.

When leaving your room for the day, please lower the temperature setting and close windows in order to help conserve energy. It is important to keep your windows closed during unusually cool or warm periods to conserve energy and maintain comfort for yourself and other residents.

HELPFUL TIPS

1. Help conserve energy through common sense habits.
2. Close your drapes or blinds on sunny days during winter months.
3. Open your drapes or blinds on sunny days during winter months.
4. Don’t leave the windows open.
5. Dress in layers.

SAFETY REQUIREMENTS

• The safety bar should NOT be removed. If the bar is not in the proper position for your setup, simply turn the bed over side-to-side or end-to-end to position it correctly.

• Avoid using tape on your furniture as it will leave a permanent mark.

• The bed frames can be flipped to give two different height options. When lifting, you can also rest the bed legs on or behind the stacking units to give additional height options.

• No tools required.

• Pins MUST be used when lofting your bed. Extra pins are available from your Building Supervisor or House Fellow.

• Use long pins for beds and short pins for other pieces.

• The safety bar should NOT be removed. If the bar is not in the proper position for your setup, simply turn the bed over side-to-side or end-to-end to position it correctly.

• Avoid using tape on your furniture as it will leave a permanent mark.

• All furniture must remain in the room. There is no loft storage in the building and furniture cannot be removed from the building.

• At the end of the year, the furniture must be returned to the original down position or you will incur a $50 charge per bed.

• Please see your Building Supervisor or House Fellow if you have any questions.

OTHER INSTRUCTIONS

• Two or more people are required to lift and stack furniture components. Keep your back straight and bend your knees. Lift with your legs and arms, not with your back.

• Remove the mattress before lofting a bed.

• The bed can be lofted at four different heights by turning the bed over or by stacking the bed box directly on other furniture pieces.
