EXECUTIVE SUMMARY REPORT
UNIVERSITY HOUSES RENOVATION
October 10, 2014

What’s New?
As the cool fall weather sets in, the workers at University Houses continue to push forward with the University Houses Project. There is evidence of the progress made in the basements of Building 5, 10, and 21 with the new equipment that is being installed. Exterior brick walls that lead to the basement and stairways have also been removed from numerous buildings. Electrical and mechanical rough ins have also been a priority in the past two weeks.

The Past Two Weeks
• Boilers were installed in Basements 5 and 10
• Hanger rough ins for Zone 1
• Piping was installed in Zone 2
• Electrical rough ins in Zone 1

Coming Up in the Next Two Weeks
• Paving asphalt
• Continue to remove gray tile and floor tile, closet shelving zone 2, 3
• Hanger rough ins in Zone 2

Did you know? With more than 800 clubs and student organizations at UW Madison, there are plenty of opportunities for students and community members to enjoy the social activities on campus. Some of the more interesting ones are the Caroling Club, which sings religious and secular songs during the holiday season and the Badger Cheese Club, which gives people a better appreciation for the taste and creation of cheese.
